Category:Events in France Category:Naturist organizations Category:Annual events in France Category:Beauty pageants in France Category:Recurring events established in 1999 Category:1999 establishments in FranceQ: Index Match & Loop through multiple sheets to return results I'm trying to return a range of values from the first sheet when the value in another sheet is found. However, I need to take the result and carry it forward through the next 5 sheets. So, I have the following (see the highlighted statement): I'm trying to get the result to the top of the next 5 sheets. I've been trying to use the following:

=INDEX(B3:D15,MATCH(A2,A3:A15,0)) But I can't figure out how to make it carry through the next 5 sheets. Thanks for the help! A: Try this =INDEX(B3:D15,MATCH(A2,A3:A15,0),COLUMN()+ (COLUMN()-1)*6) Where the 2 denotes the starting row and the 6 denotes the number of additional rows to check Friday, May 10, 2009 Hi

there! I know I have been a bit MIA lately. Haven't been terribly inspired to get anything done for ages. I've been really hoping to get my knitting together, but so far I can't get going. I've been playing catch-up with housework, stuff for the house, etc., and knitting time has pretty much taken a back seat. Anyhow, I have a great project to show you today. I saw a really pretty scarf in Stitch Kingdom, and was thrilled to see it on sale. I have had it on my wishlist for ages, and finally got to add it to my Ravelry page. I just LOVE the yarn - it's from the UK - my all time favourite place! It's a light worsted weight yarn, and I thought it would be really soft and cuddly. It is! I chose a really simple scarf design, because I like how the yarn flows, and I think it's going to look cute for this summer. I made a provisional cast on, and have really enjoyed knitting it so far. I'll take a pic soon of it on me!
