

Metro 2034 Audio Book English Do [TOP]

[Download](#)

You all know that I have been waiting for this book for so long, so its finally here. Its a translation of the Metro 2033 video game, audio book and omnibus. The English language audiobook is by Rupert Degas and is narrated by Mac Kilbride. It reads more like a serialized story than a book. Its almost episodic in nature, with an emphasis on the war hero Artyom and his good friend Simon, who is the narrator, sounding like he has seen a lot of war and still breathes fire. Other characters are mentioned by Simon but never witnessed. I liked both books and would recommend them to anyone who likes their sci-fi or Russian novels. However, this audiobook wasn't as interesting as the video game. The audiobook was more of a reference book I listened to while driving and found that the story was more intense than the video game.

I've never been a fan of games like this, however this is a little better than the Russian video game Metro 2035. The Metro 2033 series is great and one of my favorite books series. If you liked the Metro games or the other books in this series, then you should check this one out. I would recommend them all. Rus is an incredible talent when it comes to fiction, he's an author of multiple languages and a published poet. Metro 2033 is a real gem in the Russian language literature. It's both sci-fi & thriller and the twists with twists and intrigue are very prominent. It will not disappoint you whatsoever. Metro 2033 was released a few years ago in the United States and is for the most part easy to understand and comes off nicely. I would give it a 4 out of 5 stars in my review. Now comes along Metro 2033; The novel behind the Metro: Last Light video game. This book was set in the same universe as the first Metro 2033, but told in a different, more graphic style. The downside is that it does not have the epic scale as the first book and the plot and emotion are not as strong as they were in the first book. The main character is once again Artyom and we find out a

bit more about him and his past. Again we are drawn in by the stylized graphics that are more than a bit reminiscent of Gollum. I am beginning to feel like the video game will be the book of the series as it seems to be more

Metro 2034 Audio Book English Do

Metro 2034: English Edition Metro 2033 Metro 2034 2034 By Dmitry Glukhovsky is now the author's most successful book so far. 2033 by Dmitry Glukhovsky is now the author's most successful book so far.
